Technical Data

Model Jumper		MM750	MM1000	MM1500
Hourly Rated Capacity	(m3/h)	30	40	60
Capacity Per Batch (Compacted Concrete)	(m3)	0.5	0.65	1
Aggregate Bins	(n.)	4	4	4
Aggregate Storage capacity	(m3)	22	40	40
Aggregate loading height	(m)	3450	4075	4075
Aggregate Loading width	(m)	2818	2968	2968
Simem Planetary Mixer	(model)	SUN 750	SUN 1000	SUN 1500
Concrete Discharge Height	(m)	4.2	4.2	4.2
Cement Silos	(n)	up to 4	up to 4	up to 6
Connected Load	(KW)	52	55	77
Required DG set	(KVA)	80	80	125
Control System		Advanced SCADA Based / PC Control system		

Features

Simem own Planetary Mixers from 0.5m3 to 3m3 batch size.

Mixer gate operation with hydraulic power pack

Cantilever design for easy vehicle movement

Low aggregate loading height

No foundation, No anchors, only PCC required

Safety mesh standard scope of supply

Heavy duty corrugated bins for longer life

Aggregate weighing on belt and transfer to mixer by skip bucket
